

Why Mineral Makeup?

- Will not clog pores
- Virtually no allergy risk
- Broad-spectrum UVB and UVA protection
- Anti-inflammatory, helps to calm and soothe irritated skin
- Very water resistant, rarely a need to reapply
- Provides complete coverage for skin conditions like acne, rosacea and redness following treatments like chemical peels and laser resurfacing
- Minerals cannot support bacteria
- Contains easily absorbed amino acids
- Less expensive and all natural because it's made with minerals

To make Natural Glow minerals, we do

- ⇒ No Animal Testing
- ⇒ No Parabens or toxic chemicals
- ⇒ No Talc
- ⇒ No Bismuth Oxychloride
- ⇒ No Corn Starch
- ⇒ No Preservatives
- ⇒ No Wheat or wheat gluten ingredients

Natural Glow Minerals

How to Use :

1. CLEAN & MOISTURIZE & TONE:

Wash your face with a gentle cleanser. Dry thoroughly. Apply light mist of Toner. Apply moisturizer and allow it to completely absorb before applying your mineral makeup.

2. PRIME:

Apply a light coat of Primer. Primer is **the best way to make your makeup stay put for longer**. Apply using downward strokes.

3. CORRECT / CONCEAL:

To diminish red spots, use the **Soft Mint** Colour Corrector. To diminish dark circles, use the **Sunshine** Corrector. Dip your concealer brush tip into mineral corrector and apply to area of concern. Then apply concealer (usually in a shade lighter than your foundation) over Corrector and blend gently. If you are just using Concealer, dip concealer brush tip into Concealer, getting a tiny bit on the tip of your brush. Apply the concealer directly to any blemishes or under eye circles that you wish to cover up. ***Tap brush against side of lid to remove excess powder before applying.**

4. FOUNDATION:

Lightly dip your brush into the mineral foundation and **gently swirl** kabuki or powder brush in the lid or on a smooth flat dish; holding brush upright, tap the handle against counter to ensure minerals are loaded into the brush not sitting on top. You can also tap the brush against the edge of the container to remove excess powder. Apply your mineral foundation in circular strokes over your entire face

and neck area. Reapply to any areas that need a bit more coverage.

5. BLUSH:

Repeat the same process for applying Blush with your small kabuki brush or blush brush, applying it to the apples of your cheeks or anywhere else that you would like to accent.

6. FINISHING VEIL:

Follow up with a light dusting of a mineral finishing veil using your large powder brush. Make sure you begin with light circular motions and finishing with downward strokes.

7. SET:

Finish your regime with the Finishing Setting Mist (Toner/Refresher). Using a Setting Mist eliminates a "powdery" look and sets your makeup helping it to last for hours!

Tip: Always swirl brush into powder then tap lightly against side of lid or dish or , while upright, tap brush handle gently on counter.

Ask about our complete skin care line for Face and Body including:

Gentle Cleansers, Makeup Removers, Toner/Refresher, Exfoliators, Moisturizers, Facial Serum, Age-Defying Wrinkle Defense Cream, Clay & Gel Mask, Essential Oils, Bath Salts, Natural Bar Soaps, Foot Care products, Hand & Body Lotions, Shea Butter products, Lip Balm, Lip Gloss and much more.

INGREDIENTS: Sericite Mica, Silica Microspheres, Silk Powder, Iron Oxides, Mica.

5g wt/20g
Jar
\$22.00

MINERAL FINISHING VEIL:
 A mineral veil provides a flawless finish to the skin after applying foundation to help minimize fine lines and wrinkles. Mineral veils are a sheer powder that is very fine in substance and sits on the skin in a way that prevents it from caking. They can be used on every skin tone. A sheer mineral veil will not clog pores because it is good for your skin as a mineral. It also absorbs oil to minimize pores and fine lines.
 Our Mineral veils are made up of 100 percent pure minerals that are healthy for the skin and leave out the parabens and waxes that other pressed and loose powders contain.
INGREDIENTS: Sericite Mica - Carnauba, Silica Microspheres, color blend, may also contain Boron Glow (a high-quality boron nitride powder with a mean particle size of 30 microns. The larger particle size results in a boron powder which has slight glow to it.

5g wt/30g
Jar
\$20.00

MINERAL GLO: Contains Boron Glow to provide a natural finishing glow.

MINERAL MATTE: Helps to "mattify" the skin. Silica Microspheres help diminish the appearance of fine lines and wrinkles by creating a "soft-focus" look.

FINISHING SETTING MIST:
 Our facial toners/refreshers are a perfect spray to set your mineral makeup. It's like a refreshing drink of water for your skin. Infused with essential minerals and moisture binders, this ultra-fine mist rehydrates and revitalizes tired skin. Helps boost skin circulation creating a more energized, healthier look. It's great for all skin types. This mist not only hydrates, but it also soothes, refreshes, and balances the skin. We only use Non-alcohol Witch Hazel in our toners.

30ml Bottle
with mist
sprayer
\$3.50

TONERS Non Alcohol:
 Available in: **Revitalizing Botanical** (No scent), **Rose Refresher** with natural rose water, **Lavender & Orange Flower** with natural floral waters, **Revitalizing Cucumber** with Cucumber water.
